# An IT System for Members

- ▶ Our mission—create a solution for members to more effectively participate
- ▶ An IT collaboration platform
- ▶ An Information Resource

# 1. I don't have time

Meeting to meeting ...  
Phone call to meeting...  
What happened to the time?

## 2. I hate email

- ▶ Was I supposed to respond to that?
- ▶ What email?
- ▶ Why didn't you follow up?
- ▶ I was joking.
- ▶ Ooops ...

# 3. I didn't know it was possible

- ▶ What is behavior research?
- ▶ Gas? Dual Fuel?
- ▶ Motors matter to me too!

# CEE Forum—Member Collaboration

- ▶ Participate on your own time
- ▶ Tame the e-mail beast
- ▶ Share the wealth of ideas and resources

# Committee Sites

- ▶ Everything in one place
- ▶ Frequent updates
- ▶ Organized to get things done

The screenshot shows a web browser window displaying the 'Water and Wastewater Committee | CEE Forum' website. The browser's address bar shows the URL 'http://www.ceeforum.org/content/water-and-wastewater-committee'. The website has a green and yellow header with the 'CEE FORUM' logo and navigation links for 'HOME', 'CALENDAR', 'MY PROFILE', and 'LOG OUT'. A search bar is located in the top right corner. The main content area is titled 'Water and Wastewater Committee' and includes a brief description of the committee's mission. Below this, there are sections for 'Recent accomplishments' and 'Committee Updates'. The left sidebar contains navigation menus for 'MY COMMITTEES', 'PROJECTS', 'TOPICS', and 'PROGRAM RESOURCES'. The right sidebar features 'UPCOMING EVENTS', 'CURRENT USER' information, and 'WHO'S ONLINE' status.

## Water and Wastewater Committee

CEE Water-Wastewater Committee members work together to identify new approaches and resources to generate cost-effective energy savings in the savings-rich but challenging water treatment market.

Recent accomplishments:

- Energy Efficiency RFP Guidance for Water Treatment Facilities
- Small Facilities Outreach Strategy and Energy Opportunity Checklists

## Library: Commercial & Industrial, Savings Opportunity Assessment

RESULTS 10 results

**Gas Committee Meeting: Commercial Water Heaters March 23, 2010**

Date Published: Document Type: Meeting Notes  
Fuel Type: Gas Sectors: Commercial, Commercial & Industrial, Water Heating - commercial

On this call, the Gas Committee discussed developing an initiative for commercial water heaters that will support member needs. The group worked to frame the objectives of the potential Initiative, and discussed potential specification levels for both storage and tankless water heaters. Program administrators felt developing a tiered approach for both technologies would support their program needs, but consensus on what the tiers should be has not yet been reached. CEE staff will work to include feedback from this call into a draft initiative description which will be available for committee review in the coming weeks.

**Gas Committee Meeting: Commercial Water Heaters Notes May 25, 2010**

Date Published: Document Type: Meeting Notes  
Fuel Type: Gas Sectors: Commercial, Commercial & Industrial, Water Heating - commercial

On this call, the Gas Committee discussed the overall impressions of the first draft of the Commercial Water Heater Initiative Description, potential specifications tiers for storage and tankless water heaters, and particular questions related to Section 1, 2, and 3 of the draft. The group generally agreed to include residential storage and tankless water heaters within the scope of the initiative. Additionally, the group discussed the benefits and drawbacks of including stretch tiers and tiers for below-condensing technologies. On the next commercial water heater call, the Committee will continue the specification discussion and will work through a second draft of the initiative description.
