

CEE Commercial, Family-Sized Washer Initiative

Commercial, Family-Sized Clothes Washer Qualifying Product List

Based on 2007 CEE Commercial, Family-Sized Clothes Washer Specification

April 15, 2008

- The list is updated monthly. Check back frequently to ensure you have the most current list.
- *Red italics* indicate that a product is inactive. Asterisks (*) indicate that a coding variable may be used in place of the asterisks to indicate a color or feature that does not affect washer efficiency.
- *Blue italics* indicate a U.S.-only model. *Green italics* indicate a Canada-only model.
- Asterisks(*) or a plus sign (+) indicate that a coding variable may be used in place of the asterisks to indicate a color or feature that does not affect washer efficiency
- Models labeled “stacked-gas” or “stacked-electric” have a washer and dryer combined into one unit. CEE only requires test data for the washer and doesn't certify the efficiency of the dryer component.
- Models shaded in GREY use Silver Ion Technology
- Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 2 would contain the most efficient models.
- MEF=Modified Energy Factor, a combination of Energy Factor and Remaining Moisture Content. MEF measures energy consumption of the total laundry cycle (washing and drying). It indicates how many cubic feet of laundry can be washed and dried with one kWh of electricity; the higher the number, the greater the efficiency.
- WF=Water Factor (number of gallons needed for each cubic foot of laundry). A lower number indicates lower consumption and more efficient use of water.

Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 2 would contain the most efficient models.

CEE's qualifying products lists are updated periodically. See the CEE Web site for the most recent listing.

For Terms of Usage of this list, please see below or the CEE Web site.

CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their program administrator (often the local utility). Please do not call CEE.
