

Super-Efficient Home Appliances Initiative

Dishwasher Qualifying Product List

June 18, 2007

CEE's qualifying products lists are updated periodically. See the CEE Web site (www.cee1.org) for the most recent listing.

For Terms and Usage of this list, please see the [CEE Web site](#).

CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their local efficiency program administrator (often the local utility).

Other considerations:

- *Red italics* indicate that a product is inactive. Asterisks (*) indicate that a coding variable may be used in place of the asterisks to indicate a color or feature that does not affect washer efficiency.
- *Blue italics* indicate a U.S.-only model. *Green italics* indicate a Canada-only model.
- Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 2 would contain the most efficient models.
- The list is updated monthly. Check back frequently to ensure you have the most current list.

TIER 1

Energy Factor (EF) 0.65, Maximum Annual Energy Use* (kWh/year) 339

*includes both active and standby power
